

NAVY PLANE BREAKS
LONG FLIGHT RECORDNC-5 in Dash Down Pacific
Coast Exceeds Longest Jump
in Atlantic Trip.

SAN DIEGO, Jan. 1.—Establishing a new American non-stop duration record for pilot and five passengers for seaplanes, the United States naval seaplane NC-5 flew from San Diego to Magdalena Bay, Lower California, in the remarkable time of nine hours and fifteen minutes to-day.

The big triple motored plane covered the 702 miles between Point Loma and Magdalena Bay at an average speed of seventy-two miles an hour, the fastest

time ever made on this coast by a seaplane of this type.

Exceptional interest centered in this remarkable dash down the lower California coast of the NC-5, partly because of the intense eagerness of the crew to retrieve the misfortune that overtook them off Point Loma on the initial start Thursday morning and partly because it demonstrated the ability of Pacific air force seaplanes to travel over long stretches of seacoast practically without the aid of patrol craft.

The naval air station here reported that the flight of the NC-5 was the longest in the history of naval aeronautics and exceeded by about sixty-five miles the longest jump made by a seaplane in the memorable trans-Atlantic flight.

The NC-5, which was commanded by Lieut. H. V. Baugh, was damaged by a wave in taking off Thursday morning and was forced to return.

The repairs were rushed as much as possible by three shifts of mechanics, and the NC-5 got under way on its second attempt at 7:45 this morning.

At 7:15 to-night the naval air station announced that it had had no report

TRIPLE SUICIDE PACT

Buffalo Wife Kills Self, Leaving Rival.

Buffalo, Jan. 1.—A suicide pact was arranged to-night by Mr. and Mrs. Albert A. Heintz and Miss Christina Viox. Mrs. Heintz shot herself with an old family revolver, according to the police report, and Heintz and the girl, backing out of the agreement, decided to notify the authorities instead of using the remaining bullets. Mrs. Heintz is dead.

The Heintzes were playing cards early in the evening when the Viox girl, who, it is alleged, has won Heintz's love, rang the bell. They let her in and after an argument the suicide pact was suggested as a way out of the difficulty.

Mrs. Heintz went up stairs and got the revolver. Returning to the dining room she fired one shot through her brain.

While being questioned by the police Miss Viox, who is 20 years old, is alleged to have insisted that she loves

the truth about the
immigration situation

Mr. F. A. Wallis, United States Commissioner of Immigration, has estimated that 15,000,000 Europeans were preparing to emigrate to the United States;

The New York Herald has asked its various European correspondents to make an investigation and report the facts;

From these reports it would appear that Mr. Wallis's estimate is far too high;

—that Germans, through hatred of the United States, favor South America;

—that poverty and exchange are obstacles;

—that transportation facilities are lacking;

—that the movement from France will show a decrease;

—that fewer than 400,000 Jews were headed this way;

etc., etc., etc.

---full details of these important

reports will be presented as an
